

Get More & Save Time with HPS Distribution Transformers

Hammond
Power Solutions

How can we help you save?

HPS Distribution transformers offer more pre-installed standard features.

For YOU this means:

- less extra parts to buy
- less time & labor cost to install

Standard Features:

- Type 3R enclosures
 - Integrated wall mounting brackets (up to 1000lbs.)*
 - Factory installed primary, secondary and neutral lugs (up to 271A)*
 - Expanded neutral bar for multiple neutral connections
 - Factory installed main grounding lugs
 - Removable lugs provide for easy field lug size changes or repairs
 - Separate HV and LV terminal boards for easy cable installation
 - All taps individually labelled for easy installation
 - Conduit knockouts (up to 225kVA)*
 - Bottom cable entry area
 - Outward facing base mounting holes for quick and easy installation
 - Captive pem-nuts for reliable and easy removal of front/back panels
 - 10kV BIL on all 3 phase LV distribution transformers
 - Dual UL and CSA certification
 - Industry leading reliability
- *please consult HPS for details

Compare the installation **time** and **total savings** when you buy HPS

How do you save? Add up all the extra costs

	HPS*	Typical Competitor's Additional Material and Labor Costs	Typical Competitor's Additional Labor Time
Primary and Secondary Lugs	Free up to 271 amp	\$25 to \$100	30 min.
Drip Shield	Standard	\$50 to \$200	15 to 30 min.
Knock-Outs	Free up to 225 kVA	\$45 to \$75	20 min.
Wall Mounting Brackets	Free up to 45 kVA	\$50 to \$150	15 to 30 min.
Base Mounting Holes Pointed Outward	75 kVA and up	\$10 to \$50	5 to 15 min.
Total Costs	\$0	\$205 to \$675	115 to 155 min.

*kVA ranges are for standard 150°C rise general purpose transformers. Please consult catalog and E-Quotes for other products.
