Power Solutions

## Data Collection Template for Grounding Transformers

Name:  
Email:

Company:  
Country:

### Voltage Configuration

ZigZag                  Y-Delta

### Ratings

Delta Load (If Y-Delta configuration)	kVA
Delta Voltage (If Y-Delta configuration)	kV
Voltage (Line-to-Line)	Volts
Frequency	Hertz
Basic Impulse Level (BIL)	kV
Short-Time Neutral Current	Amps
Short-time Neutral Current Duration	Seconds
Continuous Neutral Current (Total or Per Phase)	Amps
Resistor provided at Neutral Terminal                  Y/N	
If "Yes", please provide resistor value	Ohms
Zero-Sequence Impedance (% or Ohms/Phase)	% or Ohms
X0 / R0 Ratio	
Coil Material	Cu/Al
Insulation Class	Deg C
Temperature Rise	Deg C

### Enclosure Construction

Open                  NEMA 3R                  NEMA 4
